## SKILLS

**FRONT-END** | HTML • CSS • JavaScript • React • Sass • Bootstrap • Redux • Next.js • Tailwind CSS • TypeScript

**BACK-END** | Node.js • Express • Sequelize • Java (in progress)

**DATABASE** | MongoDB • PostgreSQL

**DESIGN** | Adobe Photoshop • Canva • CorelDRAW • Figma

**OTHER TOOLS** | Trello • Jira

**TESTING** | Postman • Mocha • Jest • Playwright • Gherkin • Exploratory Testing • Conventional Testing Methodologies

## EXPERIENCE

**FREELANCE TIPS** | Full Stack Developer (Own Project • Feb. 2024 - Mar. 2024)

- Developed an app for freelancers to find tips, advice, and resources.
- Used React for front-end and Tailwind CSS for design.
- Implemented Firebase for user login.
- Designed tests for views with Playwright.

Access link - <https://freelance-tips.vercel.app/>

**FLEXWORK LATAM** | Full Stack Developer (Freelance | Jan. 2024 - Feb. 2024)

- Led the development of a web platform connecting projects, professionals, and companies.
- Used React and Tailwind CSS for design.
- Implemented authentication and file management features with Firebase.
- Developed the backend with Node.js, Express, and Sequelize, using PostgreSQL for the database.

**HENRY** | Full Stack Developer (Training Contract)

→ **EducaStream** (Nov. 2023 - Feb. 2024)

- Led the development of a web platform connecting projects, professionals, and companies.
- Used React and Tailwind CSS for design.
- Implemented authentication and file management features with Firebase.
- Developed the backend with Node.js, Express, and Sequelize, using PostgreSQL for the database.

→ **PokeApi** (Aug. 2023 - Nov. 2023)

- During my time at Henry Bootcamp, I developed a final individual project as a Single Page Application (SPA) using React for the Front End, CSS for the design, and Redux for global state management.
- I integrated the PokeApi API with a backend in Node.js and Express.
- I implemented the search by name, filters, and details of more than 450 Pokémon.

→ **Rick & Morty** (Jul. 2023 - Aug. 2023)

- I developed an integration project in which I created a Rick & Morty SPA using React, Redux, and pure CSS.
- I integrated an API that allows accessing characters by ID or randomly.
- I implemented sorting, filtering, favorites saving, and login and logout functions.

With a background of over seven years of experience in Human Resources, I have managed recruitment processes focusing on leadership roles and improved organizational climates. I have experience in training, HR software, and interdepartmental communication.

## EDUCATION

**HENRY**

Full Stack Developer (Completed)

**UNIVERSIDAD DE BELGRANO**

University Analyst in Human Capital Management (Completed)

## LANGUAGE

**Spanish** • Native

**English** • Intermediate proficiency (B1)

## COURSEWORK

**Java** • Codo a Codo (In Progress)

**Next.js (with TypeScript)** • Hedy Software (In Progress)

**Automating in the Browser Using JS** •

TestAutomationU

**Introduction to Playwright** • TestAutomationU

**Mocha JS Test Framework** • TestAutomationU

**AR Introduction to Video Game Design** • Fundación Telefónica

**Remote Work Professional Certification RWPC** • CertiProf

**Learn SCRUM** • Project Management Institute

**GitHub for Programmers** • LinkedIn

**Photoshop CC Tools for Beginners** • Udemy

**Getting Started with Photoshop CC** • Udemy

**Essential TypeScript** • LinkedIn
