Professional Summary

Full Stack Developer with experience in Web Development and Project Management. I have a solid background acquired at Henry Bootcamp, which has improved my skills in teamwork, data analysis and Front-end and Back-end domain. My background includes competencies in agile methodologies, GitHub, as well as CSS frameworks such as Bootstrap and Sass. I continuously seek to acquire new knowledge in emerging technologies to expand and refine my skills.

I applied my knowledge in the integral development of web applications, making use of cutting-edge technologies such as React, Node.js, MongoDB and PostgreSQL. This has allowed me to offer complete and highly efficient solutions in practical projects.

Projects

Flexwork LATAM

ene. 2024 - feb. 2024

I led the development of a web platform that connects projects, professionals and companies. I used React and Tailwind CSS for the design, and implemented authentication and file management functions with Firebase. In addition, I created the backend with Node.js and Express to manage the application logic.

Front end: React, CSS Module, Firebase | **Back end:** Node.js, Express | **Database:** PostgreSQL y Sequelize

Final Group Project - EducaStream

oct. 2023 - nov. 2023

In my role as a Full Stack Developer in the last Henry Bootcamp project, I worked with three colleagues and we created a microlearning education website with React. We used CSS Module for the design. We developed a Back End in Node.js and Express. Also, we implemented search by title, order by price, course details, payment gateway with Stripe, shopping cart, we used Firebase as a bucket to store the relevant project data, as well as using it for login and logout management.

Front end: React, CSS Module | **Back end:** Node.js, Express | **Database:** PostgreSQL y Sequelize

Individual Final Project - PokeApi

oct. 2023 - oct. 2023

During my time at Henry Bootcamp, as a Full Stack Developer, I created a SPA with React and Redux. I used pure CSS for the design. I integrated the PekeApi API with a Back End in Node.js and Express. Implemented search by name, filters and details of more than 450 Pokémon.

Front end: React, Redux, CSS | **Back end:** Node.js, Express | **Database:** PostgreSQL y Sequelize

Integrator Project - Rick and Morty

aug. 2023 - sep. 2023

I developed a Rick and Morty SPA with React, Redux and pure CSS. I integrated an API that allows ID or random access to characters, as well as offering sorting, filters, favorites saving, and login and logout functions.

Front end: React, Redux, CSS | **Back end:** Node.js, Express | **Database:** PostgreSQL y Sequelize

Jobs experiences

Human Resources Soft Analyst

Lemiro Pablo Pietroboni S.A.

Entre Ríos • may 2022 – may 2023

- ✓ I successfully managed the complete personnel search and selection processes, with a focus on leadership profiles in areas such as Civil Engineering, Bachelor in Industrial Organization and Safety & Hygiene Technician, among others, using tools such as LinkedIn Recruiter and candidate evaluation platforms.
- ✓ I contributed directly to improve the organizational climate and designed training and development plans, using human resources management software such as PDA Assessment.

Human Resources Generalist Analyst

Fadel S.A.

Entre Ríos • may 2021 – may 2022

- ✓ I successfully managed the human capital of the chicken processing plant with 300 employees, implementing effective search and selection strategies, training and coaching, and improving communication between departments with project management tools such as Trello and Management Committees.
- ✓ I oversaw daily attendance monitoring and managed the tracking of absenteeism, sickness and ART claims, working in collaboration with healthcare professionals. I used attendance tracking tools such as Microsoft Excel to ensure accurate and timely recording of data.
- ✓ I established an orderly work environment and drafted disciplinary sanctions in coordination with the company's legal team, using Microsoft Office tools to ensure that disciplinary processes were carried out efficiently and following established legal guidelines.

Technical Assistant & Telephone Operator

Call Center Derudder Hermanos SRL

Entre Ríos • nov 2015 - may 2021

- ✓ I led a call center team, supervised indicators and strategies to improve performance. I generated reports and provided support in sales and customer service at national and international level in the transportation sector, using internal and Google tools.

Education

Henry

- ✓ Full Stack Developer
